

clip and Cover

Get Started

Get 10 squares in one color and 10 in another color, one paper clip, and one number cube. Take turns.

At Your Turn

Toss one cube to find your oval. **EXAMPLE:** Choose the 3rd oval on the left **or** choose the the 3rd oval on the right. Mark your oval with a paper clip.

How to Play

The number you chose is a product. Find the expression that you can compute to get that product. Explain your choice. Cover the answer. Lose your turn if the answer is taken.

How to Win

The first player or team to get any three connected rectangles in a row or column wins.
