

# Display the Digits

**Get Started**  
 or

Read a question. Explain how to use a diagram to answer the question.  
 Display each 0 – 9 tile exactly once. If you have a partner, take turns.

a. How many thirds are in 2?

b. How many fourths are in  $1\frac{3}{4}$ ?

c. How many fourths are in 2?

d. How many two-thirds are in  $1\frac{1}{3}$ ?

e. How many halves are in 0?

f. How many halves are in  $2\frac{1}{2}$ ?

g. How many sixths are in  $1\frac{1}{2}$ ?

h. How many three-fourths are in 3?

i. How many sixths are in  $\frac{1}{6}$ ?

j. How many five-sixths are in  $2\frac{1}{2}$ ?

**If you have more time**

Use the diagrams to make up other questions about division.  
 Ask your partner to display the answers with 0 – 9 tiles.
