

clip and Cover

Get Started

Get 10 squares in one color and 10 in another color, two paper clips, and two number cubes. Take turns.

At Your Turn

Toss two cubes to find your ovals. **EXAMPLE:** Choose the 3rd oval on the left and the 5th oval on the right, **or** choose the 5th oval on the left and the 3rd oval on the right. Mark your ovals with paper clips.

How to Play

The numbers that you chose are factors. Explain how to multiply those factors. Say an equation that includes the product. Find and cover the product. Lose your turn if the answer is taken.

How to Win

The first player or team to get any three connected rectangles in a row or column wins.

0.05	12.8	9,321	0.5	1,000.8	10
1.28					100
93.21	5	100.08	932.1	100,080	1,000
100.08	93,210	128	93.21	0.05	1
0.05	1.28	10,008	50	1,280	100
1.28					1,000

Play again! If you need to annex one or more zeros, explain why.
