## Why I Love the Movies

by Iris Heeler

Main idea	{	I love all kinds of movies, but I have two favorite types. My very favorite movies are
Details	{	adventure films that happen in imaginary places or in the future. My other favorites are movies that are set in real places that I would like to visit someday.
Details: adventure movies	{	Adventure movies with imaginary plots and settings give me a chance to get away from my regular routine. I can take journeys to new and fascinating places — both near and far, far away. I can visit the colorful Land of Oz with Dorothy and Toto in <i>The Wizard of Oz</i> . Or I can blast into outer space with Luke Skywalker in <i>Star Wars</i> .
Details: movies in real places	{	Movies that are set in real places give me the chance to see cities and countries all around the world! For example, I think movies that take place in big cities like Paris, Rome, and New York are really cool. They give me a chance to see famous sights like the Eiffel Tower and the Coliseum.
Main idea restated	{	Almost every Saturday afternoon, you'll find me at the movies. It's always great fun to sit back and enjoy someplace new — without ever leaving my chair. What a way to travel!
