I think firefighters are true heroes. They rush inside burning buildings and they can never be sure what dangers they will meet? these dangers include exposure to poisonous fumes, collapsing floors, and extreme heat. Firefighters risk becoming trapped by flames, and they may also suffer smoke inhalation. In addition to courage, fighting fires requires great strength. Have you ever thought about how strong a person must be to carry a victim down a ladder or to break down a door. Firefighting is certainly one of the most dangerous and challenging jobs of all.
