

Topic 3 Performance Task

Name _____

The table shows the land area for ten countries.

Country	Land area (km ²)
New Zealand	268,680
Panama	78,200
Egypt	995,450
Turkey	780,580
Japan	377,835
Mozambique	784,090
Norway	307,442
France	547,030
Costa Rica	51,129
Chile	756,950

1. Write the land area of Turkey in word form.

2. Write the land area of Costa Rica in expanded form.

3. If you added the land area of Mozambique and Norway, would the sum be greater than or less than the land area of Egypt? Explain your reasoning.

4. List the countries with the three largest land areas from least to greatest.

5. List the countries with the three smallest land areas from least to greatest.

6. Which countries have a land area in which the value of one digit is ten times as great as the value of another digit?
