

## Fourth Grade Topic 7 Performance Task

Name: \_\_\_\_\_

Kelly works on one of the ferry boats that travel from Cape May, New Jersey, to Lewes, Delaware. She helps get the cars on and off the boat safely.

The sign below shows some information about the ferries. Use the information to answer the questions below.

1. How many miles do the ferry boats travel all together each day? Write an equation to show how to solve the problem. Draw an array to help.

2. About how many minutes do all the boats spend traveling each day? Write an equation to show how to solve the problem.

3. It takes about 18 minutes to get the cars on the ferry. It takes about 18 minutes to get them off. Kelly worked on 25 trips last week. About how many minutes did she spend getting cars on and off the ferry? Explain how you solved the problem.
