

Summer Vacation Words

Dear Marsha,

So far, my summer vacation has been great! I miss you and Denise, but my uncle's family is lots of fun, too. I have been going surfing every afternoon with Uncle Pete and Cousin Greg. Aunt Mary complains about having to chauffeur us to and from the beach, but I think she likes going to the beach, too!

At first, the other surfers at the beach taunted me. They said things like, "Be careful, little girl!" and "Surfing isn't for kids!" Now that they know me, though, they don't say that stuff anymore. I have even started to make friends with some of them.

My first few tries at surfing were hard. I had trouble maneuvering the surfboard around. I couldn't turn or paddle fast enough to catch any waves. But after a while, I got the hang of it. Now the hardest part is surfacing after getting dumped under the waves. I always get salt water up my nose!

I hope you are having a fun summer, too. I can't wait to see you next month.

Your friend,
Susannah
