

Main Idea and Details

Pond Animals

There are many animals at the pond. They like to be there for different reasons. Many frogs live at the pond. They jump from rock to rock. They swim through the water. They are looking for something to eat.

Snails like the muddy places around the pond. They crawl along with their shells on their backs. The mud feels soft and cool.

Sometimes boys and girls are at the pond. They skip rocks on the water. They catch tadpoles in a jar. Sometimes they even wade in the water. You can see why the pond is a nice place to be.
