

Elaborating with Adjectives

A Camping Trip

We hiked miles up the trail. We saw flowers and birds. From the top of the mountain, we could see forests, creeks, and valleys. Clouds in the sky made us think a storm was coming. We quickly set up our tent under trees. While rain fell, we told stories in the tent. Then we crawled into our bags for the night. In the morning, we put on our boots and hiked back down the trail.
