

# Math at Home

Children develop positive feelings about math when they have fun math experiences at home with their family!

## Things to Remember

- Exploring math should be fun!
- Allow your child to count, read numbers, explore shapes, create patterns, and measure at his/her own individual level.
- Every child learns differently. That is what makes your child unique!
- Give hints, not answers.
- Celebrate and praise ALL math discoveries!

SHOW YOUR  
CHILD HOW  
YOU USE  
MATH  
EVERY DAY!

## FUN ACTIVITIES to TRY

- ★ Count as you walk, jump, skip, march, or go up the stairs. Do one movement for each number.
- ★ Read counting books. Notice the number and count the objects as you read!
- ★ Make numbers and shapes with playdoh. First roll the playdoh into rolls (snakes). Use the rolls to form numbers and shapes.
- ★ Sort the laundry by color or clothing categories. Count the number of items in each pile. Which pile has the most/least?
- ★ Go on a shape hunt (inside or outside). Talk about the shapes. Feel and count the sides and/or corners.
- ★ Find markers that are the same size. Using markers, measure how many markers tall each person is in your family is by lining up the markers next to them.
